

WALK-IN VACCINES NOW AVAILABLE AT PRINCE HALL GRAND LODGE

Dear Colleagues, Patients, Community, and Friends,

We're so excited to announce the successful launch of our new Mass Vaccination Site at Prince Hall Grand Lodge at 24 Washington Street in Dorchester! With the full support of the National Guard, we were able to vaccinate 108 residents on the very first day. Since then, we've begun offering the convenience of walk-in vaccination, with waiting times often no more than 15 minutes. Getting your COVID-19 vaccine has never been easier!

We know this pandemic has been so hard for us all, and it's hit our community especially hard – affecting our loved ones, friends, and

family. But together, we can get through this and save lives by getting vaccinated. So, if you haven't already, we invite you to come on down to Prince Hall Grand Lodge for your vaccination. Walk-ins are available, free-of-charge, to anyone 12 years or older, regardless of immigration status or insurance. The clinic is open Monday-Friday from 10am-3pm. The HSNHC COVID-19 Mass Vaccination Site will remain active through July 31, 2021. In fact, on Wednesdays during the same hours, we will offer COVID Testing, and we are open for walk-in.

And for those with apprehensions, rest assured that our caring staff are happy to answer any questions you may have. The bottom line is that the vaccine is the best way to protect yourself and those around you from contracting the virus. It does not contain any live virus, so it can't make you sick with COVID-19. If you experience mild side effects, this is merely a sign that your body is learning how to protect itself.
